

# KALPAVRIKSHA

Where You Don't Just Arrive  
**YOU BELONG**

By Easy Homes & Shree Shakthi Developers

## THE STIRRING

# “The Search We All Share”

We all search.

For space that feels expansive, yet grounded.

For a future that holds promise—not pressure.

For a place where our children grow not just tall,  
but rooted in memories.

For a home that reflects not what the world  
expects, but what we truly want.

## THE DISCOVERY “Where Intention Meets Life”

Kalpavruksha wasn't built to impress—it was built to mean something. A place shaped by values, not trends. Where openness is not just in the layout, but in the way life flows.

Where every line drawn was guided by one question:

*What does a peaceful, grounded, future-facing life really look like?*

---

We believe the answer lies in balance between nature and neighborhood, between vision and roots.

## THE BELONGING

### “The Sense That You’ve Arrived”

You’ll know it when you walk in.  
The golden sunrise breaking gently over the eastern hills,  
The breeze, quiet creek winding through  
Surrounded by hills on three sides, Kalpavruksha holds you in nature’s gentle embrace..  
The sense that you’ve arrived—not just somewhere new, but somewhere right.

## THOUGHTFUL FOUNDATIONS

At Kalpavruksha, the truest foundations aren't just laid in stone, but in quiet choices—where every path, every pipe, and every wire is a gentle promise woven beneath the earth, bringing you comfort, clarity, and peace of mind that lasts.

## ROADS & PATHWAYS

*Planned for movement. Designed for grace.*

- 60', 40' & 33' wide internal CC roads
- Paver-finished pedestrian pathways alongside driveways
- Clearly marked signages and plot numbering for easy navigation
- Paver-finished access from approach road to every plot
- Stormwater gutter drains along the driveways for clean flow
- Landscaped avenue plantations lining both sides of every road

## SMART UTILITY INFRASTRUCTURE

*The systems that support your life should be seamless, silent, and secure.*

- Underground fibre optic provision for data and voice
- Underground power lines distributed via feeder pillars
- Centralized transformer for efficient power management
- Provision for individual cable connections from feeder pillars to each plot

## WATER & PLUMBING

*Life flows better when water does too.*

- Underground water supply lines from overhead tank to each plot
- Underground sanitary lines connected to STP
- Piped water networks laid discreetly throughout the layout
- Drip irrigation network for nurturing landscaped areas with care

## SPACES THAT BRING PEOPLE TOGETHER

At Kalpvruksha, community isn't built through walls—it's grown in spaces where joy, movement, and memories meet. Every shared space here is a quiet invitation to belong—to connect, celebrate, and simply live well, together.
